

# Music Port™

Whatever Source You Want It To Be.

## Stream, Sync, Store, and Control.

Deliver four versatile sources through a single component, for easy access to near-limitless audio.

The **Music Port** (NV-MPS4) and **Music Port Elite** (NV-MPS4-E) are masters of audio enjoyment. From one easy-to-operate unit, unleash iTunes and Windows Media Player content, while streaming from favorite online services, for four audio outputs. And the **Elite** takes the luxury of “your music, your way” even further. Enhanced features like cloud synchronization, networked storage, and easy integration with Crestron, AMX, and URC systems, offer superior performance.

### • 4 Sources

Tune into XM in the great room while the kids enjoy their own personalized stations on Pandora. With four simultaneous sources of audio from a single unit, everyone, everywhere, has their choice.

### • Streaming Internet Radio

Tap directly into the largest portal of music with access to streaming online content from SIRIUS, XM, Pandora and more than 100,000+ online radio stations.

### • NuVoNet Smart Source

Browse through your library and select by Artist, Album, Genre, Song and Playlists. All of the metadata from your favorite sources is available on your keypads.

### • Auto Sync

Everyone’s own personal collection of music is always available; the Music Port automatically syncs with all network PCs.

### • Internal Storage

Room for 30,000+ songs on 320GB hard drive (640GB on *Elite*.)

### • Network Storage

Your music should all be in one place. With the option for expanded storage no library is too big.

### • IP Control

Bring Internet Radio and networked music into your Crestron, AMX or URC system with pre-built control modules.

### • Cloud Synchronization

No matter where you are, your music is there too. Your beach house, your boat and your office all sync, so your music, even your latest download, is with you wherever you are.

### • Scheduling

Wake up to a light melody as your system follows your routine.
